

Advancing the Breastfeeding and Bonding Portfolio at Kaiser Permanente

Driving Change Through **Strategic Communications** and **Program Design**

National Women's & Children's Health

KAISER PERMANENTE®

Agenda / 20 minutes

5m Executive Summary

5m Opportunities and Goals

8m Deliverables

2m Next Steps and Conclusion

Executive Summary

Issues

When accessing lactation care at KP, improvement opportunities regarding patient satisfaction persist

Lack of care team awareness of Breastfeeding educational program

Question

How can the National WCH team bridge Breastfeeding gaps and encourage care teams to consistently deliver high-quality, compassionate lactation care?

Strategy

Designing a Lactation Program Bundle that leverages a robust communication plan to deliver audience-specific messaging over the course of two months. The goal is to effectively socialize the Breastfeeding Portfolio and increase curriculum and resource engagement amongst care teams.

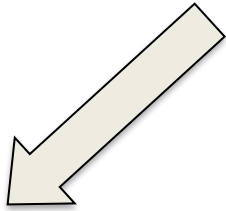

Impact

Strengthen awareness of the breastfeeding educational program

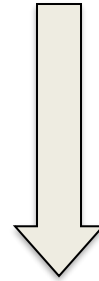

Encourage continued education for care teams

Prioritize patient-centered lactation care

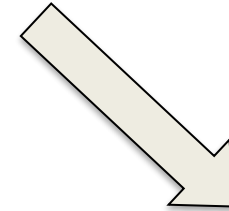

Identified Focus Areas to Strengthen the Lactation Educational Program

Minimal Visual Identity

Lack of Robust
Communication Plan

Lack of a program theme

Program Theme: Compassion in Action: Improving Interdisciplinary Lactation Literacy

High Level Goal:

Increase clinician breastfeeding education to close quality gaps and ultimately help KP members and their families achieve their desired lactation outcomes.

Actionable Goals:

1. Boost the # of Breastfeeding trainings completed by clinicians who support parents of newborns
2. Expand the distribution of WCH resources to leaders across the continuum of care through targeted audience outreach

Breastfeeding and Bonding Internal Communication Roll-Out				
Timeline	Deliverable Roll-Out	Channel	Target Audience	
T-4 Weeks	- Lactation Kick-off email highlighting what’s to come in the next month with existing resources linked (i.e., KPLearn, WCH SharePoint) - Include a pre-survey highlighting attitudes and knowledge of B&B Program - Introduction to the established theme for the Lactation Bundle	Email	All internal stakeholders	●
T-3 Weeks	- Visual Assets Email with themed digital materials (i.e., banners and Teams backgrounds) - August MGR Socialization; what to expect and who the speaker will be	Email	All internal stakeholders	●
T-2 Weeks	- Resource document pointing to audience-specific sections - Scenarios, resource navigation, and quick tips	SharePoint	RNs, ANMs, Lactation Consultants, OBGYNs, Family Medicine	●
T-1 Week	- August MGR Socialization - What to expect, how to prepare, and who the speaker will be	Email, Flyer	All internal stakeholders	●
Week of Rollout, By July 31 st	“Breastfeeding Month is Here!” email - Reinstate the Lactation Bundle and remind stakeholders of everything that has been distributed	Email	All internal stakeholders	●
National Breastfeeding Month Newsletter Roll-Out				
Week 1, by August 4 th	Newsletter #1: “World Breastfeeding Week”	Email, SharePoint	All internal stakeholders	●
Week 2, by August 11 th	Newsletter #2: “Indigenous Milk Medicine Week”	Email, SharePoint	All internal stakeholders	●
Week 3, by August 18 th	Newsletter #3: “Asian American, Native Hawaiian, and Pacific Islander Week”	Email, SharePoint	All internal stakeholders	●
Week 4, by August 25 th	Newsletter #4: “Black Breastfeeding Week”	Email, SharePoint	All internal stakeholders	●

"Breastfeeding Month is Here!" Email in August

Dear Leaders,

August is **National Breastfeeding Month**, a time to recognize the importance of lactation care and promote human milk feeding and its numerous health benefits. In support of this observance, the National Women's and Children's Health team is pleased to share a set of **internal use visual assets** to help elevate awareness and engagement throughout Kaiser Permanente.

Included **Visual Resources**:

- **Email Banners:** Ready-to-use graphics for your email signatures or internal communications.
- **Microsoft Teams Backgrounds:** Branded virtual backgrounds to display your support during virtual meetings.

We encourage you to use these **assets** throughout the month of August and share them with your team.

Be sure to register for the following upcoming events:

1. **Breastfeeding Virtual Symposium in SCAL/HI** on August 6th from 9:00am - 1:00pm PST. [Register here](#)
2. **Women's and Children's Health Multidisciplinary Grand Rounds session** on August 26th from 12:00pm - 1:00pm PST. [Register here](#)

Act now - Challenge your teams to complete the *newly updated* [Breastfeeding and Bonding web-based training courses!](#)

Stay tuned! We will continue to send resources for you to share with your teams in celebration of National Breastfeeding Month.

Dear Leaders,

August is finally here, and it is **National Breastfeeding Month!**

Breastfeeding is a deeply personal experience that can be profoundly impacted by the support provided by healthcare professionals. This month is about exploring clinical, physiological, emotional, and equity dimensions of human milk feeding, with a focus on improving interdisciplinary literacy to provide more reliable evidence-based care.

The Women's and Children's Health team is so excited to kick off this month with weekly newsletters, educational resources, and more **visual assets**. **Latch on!**

Breastfeeding Awareness Visual Assets:

- **Email Banners:** Ready-to-use graphics for your email signatures or internal communications.
- **Microsoft Teams Backgrounds:** Branded virtual backgrounds to display your support during virtual meetings.

We encourage you to use these **assets** throughout the month and share them with your team.

Be sure to register for the following upcoming events:

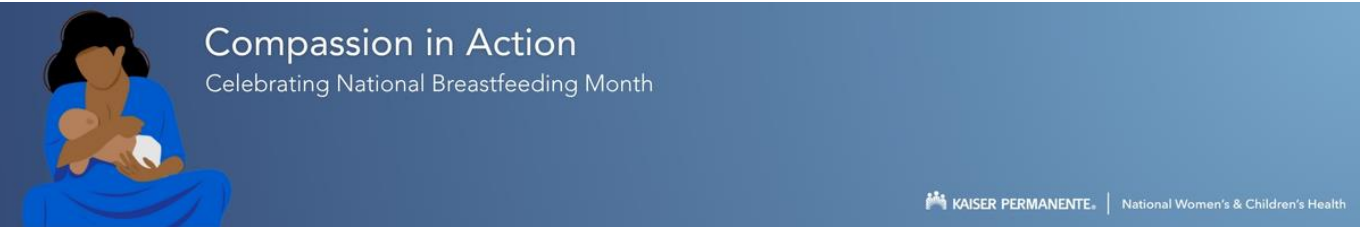

- **Breastfeeding Virtual Symposium in SCAL/HI** on August 6th from 9:00am - 1:00pm PST. [Register here](#)
- **Women's and Children's Health Multidisciplinary Grand Rounds session** on August 26th from 12:00pm - 1:00pm PST. [Register here](#)

Act now: Challenge your teams to complete the *newly updated* [Breastfeeding and Bonding web-based training courses!](#)

Stay tuned! We will be sending out weekly newsletters with Breastfeeding observance highlights and clinician-focused resources.

A Women's and Children's Health Multidisciplinary Grand Rounds Session

Compassion in Action: Improving Interdisciplinary Lactation Literacy

Don't miss out on August 26th 12-1pm PST

Click here to register
for this webinar!

Speakers

**TaNisha K. Dickens, DNP, MBA, NEA-BC,
C OB-EFM, C-ONQS, CLE**

SCAL Regional Clinical Operations Director,
Maternal-Child Health

Jocelyn Audelo, RN, MPH

National Leader for Women's & Children's Health
Senior Director, National Health Plan & Hospital
Quality

Dr. Dickens will discuss how to
enhance lactation support through
compassionate, team-based care.

Designed for healthcare
professionals across disciplines,
this discussion will highlight
**effective communication, shared
understanding, and culturally
sensitive approaches** to infant
feeding support.

Session Objectives

1. Strategically counsel patients from different backgrounds regarding the evidence-based benefits of, and techniques for effective breastfeeding.
2. Utilize strategies to demonstrate cultural humility and empathy when counseling patients about infant feeding.
3. Practice the use of inclusive, non-judgmental language, tone, and non-verbal cues to support patients and families with feeding decisions.
4. Engage patients and families in guided conversations to ensure they feel emotionally supported by their care team.

Target Audience

Clinicians and nurses who support parents of newborns and infants:

- Registered Nurses (RNs)
- Assistant Nurse Managers (ANMs)
- Lactation Consultants
- L&D, NICU, Postpartum Managers
- Pediatrics
- Primary Care
- Family Medicine
- Care Experience Leaders
- Quality Leaders

Managers \(ANMs\)](#)

Myth or Truth!

As with many topics, when it comes to breastfeeding, there are many popular beliefs that may not always be entirely true.

Check your knowledge by playing our **Myth or Truth game**.

We'll cover the answer in next week's newsletter.

Week 1 Myth or Truth:

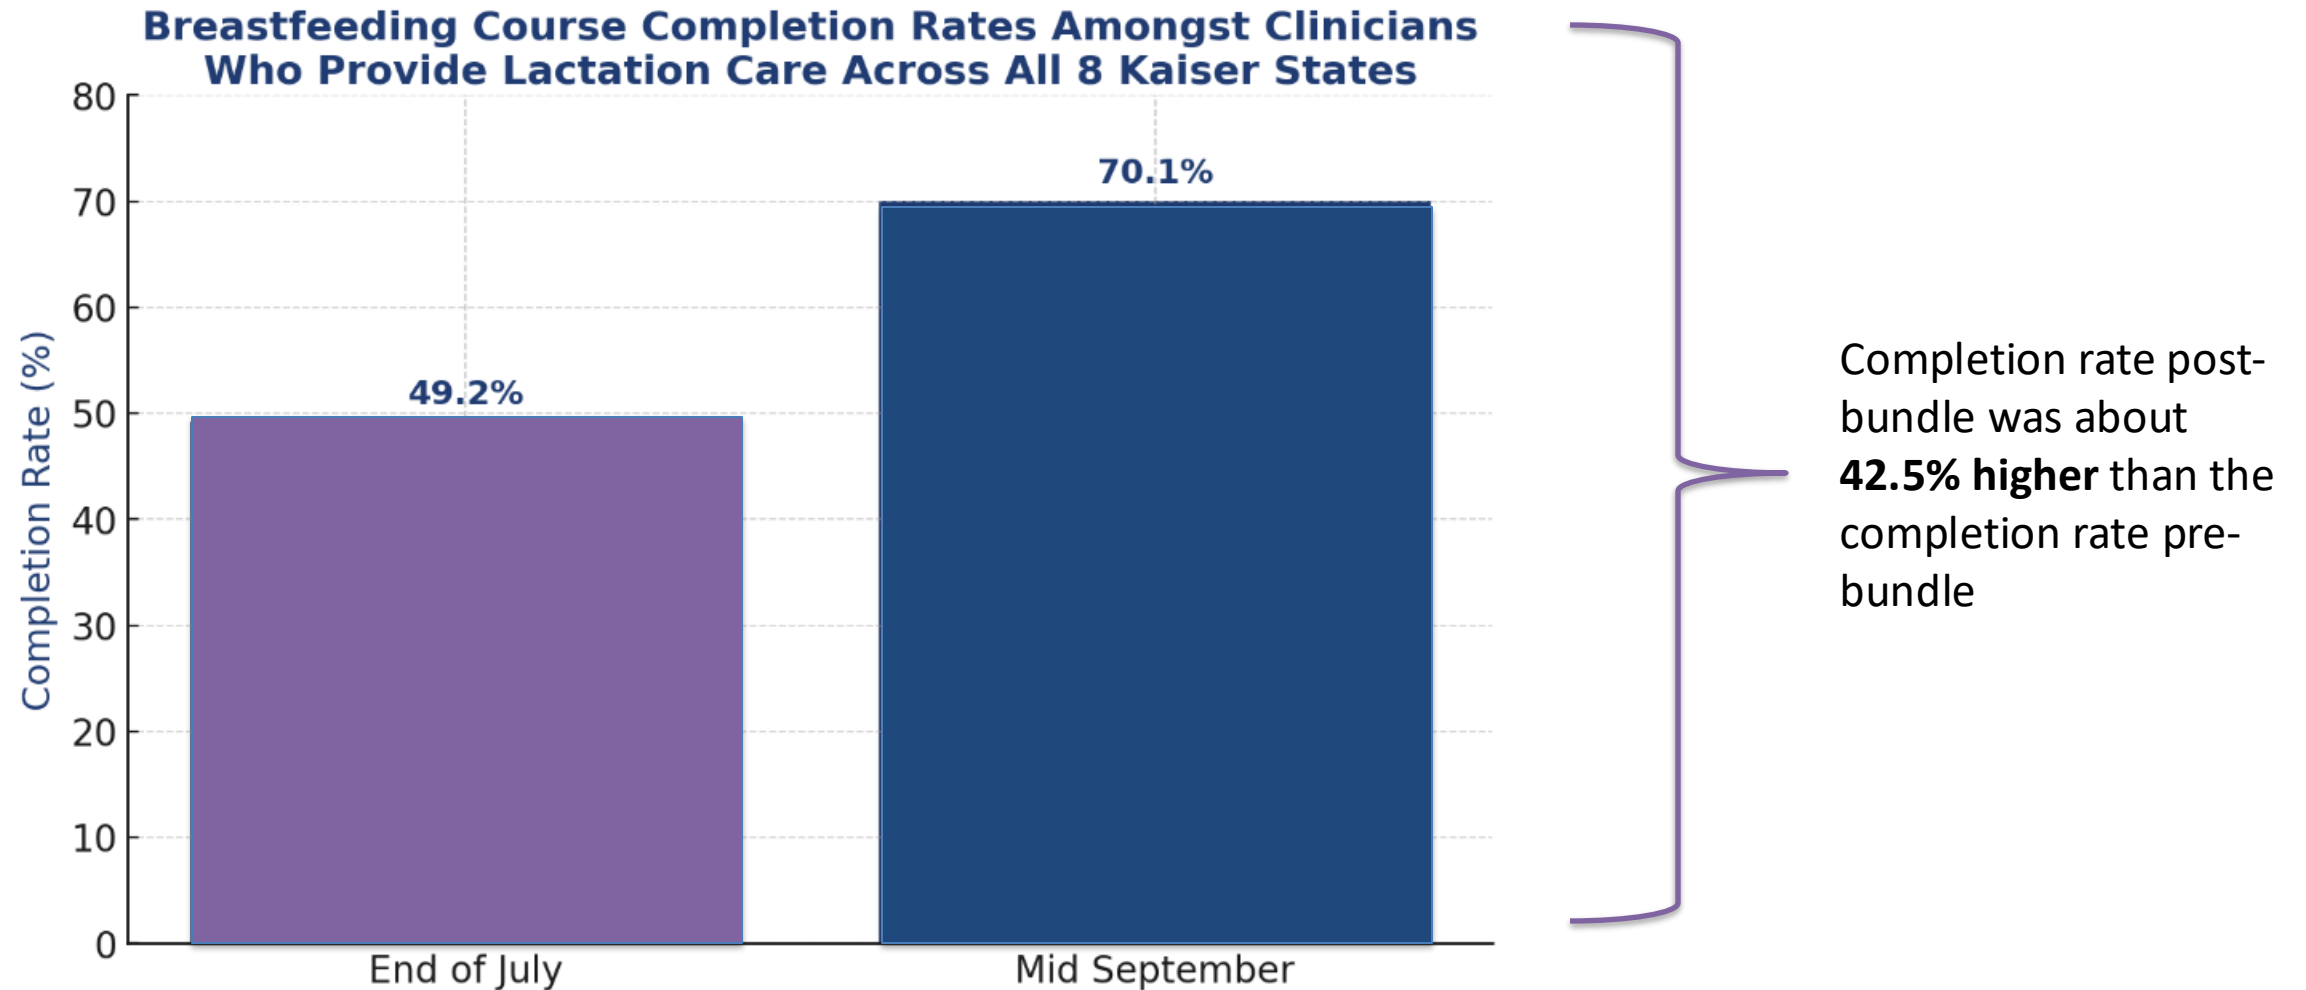

Exclusive breastfeeding/chestfeeding acts as natural contraception.

Key Meetings Where This Program Was Socialized

1. Pediatric Leadership Group
2. Care Management Institute Meeting
3. Non-KFH Meeting
4. WCH Huddle (7/28)
5. WCH Huddle (6/16)
6. Quality Department Meeting with Misha
7. Marketing and Communications Meeting

Monitoring and Evaluation: National CE and CME Training Dashboards

Conclusions

- Increased clinician participation in the National Lactation Educational Program
- Changes in patient breastfeeding satisfaction have yet to be evaluated

Recommendation

Establishing **stronger partnerships** with the Care Management Institute = sustainable Lactation Educational Program
